Dear readers...

I'm very pleased to let you all know that we can still buy **Bramwell yarn**. After 45 years, **Bramwell Crafts** has entered a new and exciting phase. The company will continue under the direction of **Andrew Carter** of **PotteryCrafts**, with **Alison Park** as **Craft Sales Manager** of **Bramwell Crafts Group**. All orders will now be handled from group headquarters in Stoke-on-Trent. **Bramwell Crafts** will continue to support retail customers and offer on-line tutorials, as well as training in **Blackburn**. I called the office recently and it's currently run by **Alison** and **Mary, Peter Bramwell's** daughter. Mary tells me that Peter and

Tony have moved onto pastures new and we wish them well. I was also pleased to hear that **Neville** is fine and we all send him our best wishes. It's obviously been a difficult time, but an important transition and we wish Mary and Alison well as they carry the Bramwell name into the future. **Bramwell Fine 4-ply** will be available in 22 shades and Artistic has seven shades. Stocks will come through at the beginning of June and I suggest you keep an eye on Metropolitan's website at www.metropolitanmachineknitting.co.uk because Carol will put them on the website as soon as they arrive. Good luck to them all and we hope to see Bramwell Crafts for many years to come. Their website address is now www.bramwellcrafts.co.uk

Having given you the good news, here's something you may not want to hear. **Nick Traylen** at **Uppingham Yarns** called to say that they can no longer get genuine new Brother standard gauge needle retention bars (sponge bars) for standard gauge machines. This is for either punchcard or electronic machines. Nick has spoken to **Doug Bristow** at **Heathercraft** and they're both on the lookout, so we'll keep you posted. A while ago you may remember there were no garter carriage needles either but then some appeared, seemingly out of the blue, so we've fingers crossed for all Brother knitters.

Finally here's the recipe for the solution so many of you have requested for cleaning a machine. It's about one pint of **Surgical Spirit** to one teaspoonful of **Bellodor oil**. (If you live overseas, please note that UK Surgical Spirit is alcohol based and not water based.) Into this fluid, put all the needles and pushers if you've a Passap machine and allow them to soak thoroughly. Remove each needle or pusher individually and, with a dry cloth, rub it clean. Get rid of all the black dirt and lay each flat. Put a few drops of Bellodor oil onto a clean dry cloth and rub each needle or pusher with it. It really is a 'few drops' of oil, not an oily rag. Now return each needle or pusher and the difference will be noticeable. Until next time, happy knitting.

Anne Smith, Editor

Knits 'n' Bits

It's always a pleasure to pass on good news and we've a new name on the machine knitting scene. Many of you know **Wendy Piper** already. She's been a machine knitter for over 35 years and completed the **C&G** course around 15 years ago at **Hinckley**. She's a regional officer for the **GMK** and was one of the founders of **Long Buckby Machine Knitters**. If you attend shows and exhibitions, lots of you will have seen her either on the **GMK** stand or from helping **Jane Woodward** at **Shades of Cashmere**. Wendy has also written a few patterns for **MKM** and, when time permits, she's worked with beginners as a private tutor.

Wendy started buying and selling machines and accessories about eight years ago. The activity has increased and she now buys and sells all manner of things related to machine knitting. It may be a single machine or a whole room filled with equipment and yarn when someone stops knitting. She services, cleans and tests everything she sells and machines are complete with all the accessories and ready to use. She doesn't have a shop or showroom and works from home. The backbone of her business is based on personal recommendations and she also sells on eBay.

By chance, Wendy was next to our Editor Anne with **MKM** at the **Nottingham Show**. They got chatting and Wendy told Anne she'd thoroughly enjoyed the day, even though it was hard work. Anne then asked her to come to **Machine Knitting LIVE!** at **Croydon**, thrilled that a new face can step in now that Doug and Brenda are no longer exhibiting - see Anne's letter on **Page 5** last month. Wendy has agreed to do so and will have used spares and accessories for **Brother**, **Knitmaster** and **Silver Reed** machines as well as **Passap** and **Pfaff**. At present, her own machines are a Brother 96Si, Passap E6000, Brother 270 and a Knitmaster fine gauge. We all know how frustrating it can be at a show to ask for something that someone hasn't brought along, so if you need anything special then please get in touch in advance and Wendy will be pleased to bring it to Croydon. You can contact her by e-mail at knitsnbits@live.co.uk or call **01327-842335**. There's just one important thing to note, Wendy doesn't have card facilities so you'll need to bring a cheque book or raid your piggy bank before coming to the show.

Twee Twinsets

Twisted Twee has added dad and nipper twinsets, with vibrant fluorescent colours for this spring and summer, to their popular range of pint and half pint designs. The designs are printed with organic ink onto soft organic cotton T-shirts and to complete the range, there's also a pint T-shirt for mums in big beautiful brazen pink. All Twisted Twee's Twinsets can be found at www.twistedtwee.co.uk

Chatsworth interiors

The textiles team at **Chatsworth** will reveal how they look after the 300-room house, with a series of tours and workshops during 2011. Conservation work is vital to preserve highly fragile fabrics such as the **Raphael tapestries** dating from 1635. Much of the furniture and wall hangings is under constant threat from sunlight, moisture and insects. Of special interest is a **Textile Workshop** from **9.00 am to 4.00 pm on 16th June** costing £60 per person. It will look at stunning textiles and the conservation work going on behind the scenes. Participants will learn how to make drop braids and trimmings for their own homes. Partnership for Children

Good Books

Produced by the charity **Partnership for Children**, **Good Books for Tough Times** has been sent to thousands of schools and libraries. It's also available free of charge online for parents. The guide helps adults find the right books for children dealing with difficult situations or feelings. Following an earlier version for younger children, the latest guide focuses on the 9-12 age group and recommends 59 books including David Yelland's **The Truth about Leo** for its openness about alcoholism in families, Roald Dahl's **Matilda** for bullying and the **Harry Potter** series for friendship issues and bereavement. Parents can find it difficult to discuss issues with their children such as the death of a grandparent or a much-loved pet, dad's alcoholism or mum's depression. Reading a story about someone else who has gone through a similar experience can be helpful and the free guide can be ordered from www.partnershipforchildren.org.uk

A summer to remember

If there's a football mad youngster in your family, read on! **Manchester United Soccer Schools** provides action packed two-day player development courses and summer residential courses at Manchester United Soccer Schools for boys and girls between six and 18 years old. Young footballers can **'Learn to Play the United Way'** throughout the UK and Republic of Ireland. The courses run until **August 2011**. Residential courses begin in July and children take part in a fun-filled week of football. Based on **Manchester United's Academy programme**, the football sessions are delivered for young players of all abilities to enjoy. At a cost of **£69.95**, the two-day player development course is the perfect gift for young footballers. The package includes expert training from UEFA qualified coaches, use of state of the art training equipment and

a player diary to help monitor progress and ongoing development. The residential courses cost from **£499.95 to £599.95** and provide the experience of a lifetime for any passionate young footballer. The package includes expert training from UEFA qualified coaches, use of state of the art training equipment, a full **Manchester United Soccer Schools Nike** training kit, a behind the scenes tour and closing ceremony at **Old Trafford** and a player book to help monitor progress and ongoing development. For the more information on all courses available in 2011 visit www.manutdsoccerschools.com

Blooming marvellous

Until **4th June**, there's a family exhibition at **Bournemouth Library** depicting a huge knitted garden made by over **1400 knitters**. Sight right

None of us can ignore a recent warning from the **Macular Disease Society**. New research shows that more than half a million people in the UK have late-stage macular degeneration, confirming it as the UK's leading cause of sight loss. Macular disease damages our central vision, destroying our ability to make out fine details for reading or recognising people's faces and rapid treatment could save our sight.

Symptoms If we experience any of these we should go to hospital within a week to possibly save our sight

- 1 Objects directly in front of us may change shape, size or colour.
- 2 Objects may seem to move or disappear.
- 3 The central area of our vision may become blurred.
- 4 Lines may become distorted.
- 5 Dark spots may appear in the centre of our field of vision.

Prevention There are a number of things we can do.

- 1 Visit our optician at least every two years for an eye test.
- 2 Wear lenses that block UV and blue light especially when in bright sunlight. Blue blocking filters also reduce glare.
- 3 Eat lots of fruit and green leafy vegetables.
- 4 Ensure our diet is low in saturated fats and rich in Omega 3 fatty acids (oily fish).
- 5 Wear a brimmed hat or a visor that shades our eyes from direct sunlight.
- 6 Keep our blood pressure down. People with high blood pressure are more likely to develop MD.

Finally, for more information contact The Macular Disease Society at PO Box 1870, Andover, Hampshire SP10 9AD

Silver celebrations

It's not often that a knitting club can boast they've reached their **25th anniversary**, but it was a recent highlight at the **Masterknit Knitting Club**. Members meet on the third Saturday of the month at 2.30 pm at **Metropolitan**. On these occasions there is always a topic arranged in advance and sometimes a guest speaker attends to speak on a subject relating to machine knitting. It's also an opportunity to meet other machine knitters and discuss knitting topics in a relaxed atmosphere. The photographs show club leader **Carol Hocknell** with the celebration cake, joined by some of the current members. Visitors are always welcome and **Metropolitan** is at The Pinfold, Poole, Nantwich, Cheshire CW5 6AL. Tel 01270-628414

Knitability

Dear Anne

Our knitting club had a busy year in 2010. The main event was hosting the **AGM of the Machine Knitters' Guild** in June, when about 100 people attended. Apart from the main AGM business, there were two speakers. **Ruth Lee** showed us slides and **Iris Bishop** talked about her latest ideas. There was the prize giving for the various competitions with some brilliant entries that amazed everyone. An informal fashion show followed and it was a very successful day, enjoyed by everyone.

Though small, our club has gained some new members and we've learnt from each other, as well knitting hard. **Fiona Morris** came and spoke to us about **Eco-Friendly yarns**, which we found very interesting. We had a pin-cushion competition and have also produced lots of garments, which were sent to orphanages in Romania. Our latest project has been knitting '**Tiny Teds**', which are going out to **Feed the Children in South Africa**. I'm sure lots of children will be thrilled to receive them.

Our club meets on the **first and third Friday morning of each month** (except August) at **Popley Community Hall**, Basingstoke from **10.00 am to 12.00 noon**. New members are very welcome and please call me on **01256-772083** for more details. Keep up the good work with the magazine, there is something for everybody in it. Best wishes from **Ann Moore**.

Club speakers If you're a club speaker and would like to add your name to our list then call us or drop a line - you'll find the address on page 3

Good news

Following on from **Sandra Sparrow's** enquiry on Page 11 in the May issue, **Mary Bulgin** called to say that the **Paignton MKC** is still going strong. Members meet on the **first Thursday of the month** (with one or two exceptions such as the New Year) from **7.30 to 9.00 pm**. The venue is **St Paul's Church Hall** in Preston, Paignton. Chairperson, Mary is usually there early from around 7.00 pm and new members are welcome to pop in for a chat. Each month, numbers swell to around 14 enthusiasts and new members are very welcome. If you'd like to chat to Mary, then please call her on **01803-527077**.

Plymouth Ho!

Margaret Eldridge has returned to machine knitting after a long break and wondered if there was a club in Plymouth. We're pleased to let knitters in that part of Devon know that the **Plymouth Machine Knitters Group** meets at **7.00 pm** on the **3rd Monday** of the month. Everyone is welcome and the club aims to help each other and enjoy using a knitting machine. **Pat Gregory** is your contact and please call her on **01752-845498** for details.

Knitting spectacular

Dear Anne

We are putting on our **Knitting Spectacular** again this year. It will be held on **24th September** at **Harold Hill Community Association**, Gooshays Drive, Romford **Essex RM3 9LB**. The show is open from **10.00 am to 4.00 pm** with a competition to knit and wear a summer top and the speaker is **Iris Bishop**. There will be refreshments and plenty of parking. The **entry cost is £5** and call me on **01708-347263** for more details. We all still enjoy the magazine and are trying our hardest to keep machine knitting interesting. Regards, **Patricia Dadson**

Baby Bliss

Dear Anne

My grandchildren are now starting to have their own children, so I'm trying to use up all my ends of cones. Here's another pattern for Stash Box that only uses about 50g of yarn. Kind regards from **Carole Nixon** in Australia

FIRST SIZE BABY JACKET

Size To fit a new born average baby.

Yarn Carol knitted with Cashmilon 2/24 very fine yarn using 1 end for pattern and 2 ends for welts.

Tension 20.5 sts and 55 rows to 10 cm, 4 in measured over double bed tuck stitch using Tension Dial setting 3/3.

Double bed tuck stitch pattern see basic card shown.

Note Knit welts with 2 ends of MY in FNR (full needle rib) over 10 rows.

Back Using ribber and TD 3/3, cast on 46 sts with 2 ends of MY in FNR rib. * Set RC at 000. Rib 9 rows. K 1 row to right to set pattern and remove 1 end of yarn. Push in both tuck buttons. Still using TD 3/3, reset RC to 000 *. K 50 rows. Mark row at both ends for armhole. K 55 rows (105 rows in all). Mark centre 18 sts, cast off loosely.

Fronts (work right side first) Using ribber and TD 3/3, cast on 23 sts with 2 ends of MY in FNR rib. Work as for Back from * to *. K 50 rows.

Shape neck First mark row at right end for armhole then dec 1 st at neck edge (left end) of next row, then on every foll 6th row 8 times until 14 sts rem. RC shows 098. K straight to RC 100. (Fronts stretch so 5 rows shorter than Back is correct.) Cast off loosely.

Left side Work as for right side, reversing shaping.

Sleeves Using ribber and TD 3/3, cast on 32 sts in MY in FNR rib. Work as for Back from * to *. Inc 1 st at each end of every 26th row 3 times to 38 sts (78 rows total). Cast off loosely.

Front band Using 2 ends of MY, FNR and TD 3/3 cast on 13 sts (7 on main bed and 6 on ribber). K about 290 rows making a small buttonhole on rows 5, 21 and 37.

Finishing Join shoulders. Sew sleeve top to armhole, easing to fit. Join side and sleeve seams. Sew on front band, undoing surplus rows before finishing end of band. Darn in loose ends.

ARE THEY OBSOLETE?

Dear Anne

I have been having a sort out and have found a ribber attachment for a 321 Knitmaster knitting machine and a Knit Radar for the same machine. I wondered if you thought they may be of any use to anyone or have things moved on and are they obsolete? I don't want anything for them, but it seems a shame to take them to the tip if anyone could find a use for them. Perhaps you would be good enough to let me know, or put me in touch with someone who might

be interested. Many thanks, **Chris Hall** in Birmingham B47

If you could use either of these items then please contact Anne and she'll put you in touch with Chris.

WHAT'S IN STORE?

Dear Anne

Whilst renewing my subscription, I thought I'd drop you a line because I haven't had chance to do any knitting for a while apart from a little kitty jumper. I gave up my knitting room for what I thought was three months whilst

my daughter got herself back on her feet again. I didn't mind because it was just a short while putting things on hold and I still had the ability to use two needles. I'm currently busy on an Aran cardigan. As it's turned out, I haven't been able to use my room for 18 months, but there's good news. I will have my room back in the next few weeks. I've had to store all the yarn in the coal shed. Don't worry, it's all clean and been painted and I've used it to store loads of other bits and bobs, but it's a nightmare to get to it all. I have my Brother 836 set up still

Send your letters to
RPA Publishing

Berkshire SL6 8YX

but the 260 had to be packed up. In the meantime, I have yarn at the ready and cards punched, so I should be up and running any day now.

I so missed Joan Lafferty's pages and I'm really glad to see some of her old articles printed again. We tend to forget that we're all getting older, but we all hope to carry on as long as our bodies will allow. I also have magazines from the 80s and some old copies of To & Fro. They're still useful for patterns. I'm not a fan of dropped shoulders. They're nice and easy for children's garments but for myself I much prefer a set in sleeve or raglan.

I've sets of Marion Nelson cards which have proved very useful. I have a Knit Leader which I bought on eBay for £15 and it was as new, even came with a carry bag, but I use it infrequently. I already had one but the sheet cogs wouldn't turn. I took it apart but couldn't find the problem. Just one cog got stuck, so I put it back together again and my daughter went on-line to see what was there and we struck lucky. It works perfectly. I took the old one upstairs and thought no more about it, then I was idly turning the knob and guess what, it worked perfectly so now I've one to put on the 260 as I have the rulers for the chunky machine. I did find a double-ended bodkin on the floor, so maybe it had fallen in and jammed the mechanism.

I've just bought a laptop and I'm learning very slowly how to use it. It's a great help if I'm looking for yarns and bits of accessories. I'm so happy to be able to get back to my machines and keep up the good work with our magazine. Best wishes from Mrs SW in Grays. (Full name and address supplied but we've withheld it so as not to upset our reader's daughter.)

ABSOLUTELY WONDERFUL

Dear Anne

I absolutely love the magazine and devour it as soon as it arrives. I'm just getting back into knitting again after a break of three years, since our move to Scotland. However much of it sticks in the 'little grey cells' as Poirot might say. I'm just about to knit a Star Wars sweater and cable sweater for my grandson which, after a long gap, is

proving quite a challenge. So many of your patterns over the last 14 months have been absolutely wonderful. They would inspire anyone to keep knitting and subscribing. Thank you to everyone who makes my read so enjoyable. You are appreciated by so many, so please keep up the good work. Thanks once again and feel free to print this if you wish. Best wishes from **Barbara Curd** in Sutherland.

SILVER GAUGE

Dear Anne

I have a very old copy of Machine Knitting Monthly and it talks about The Silver Gauge for checking wool thickness. I wonder if it is still available or if you know of any similar gauge for wool thickness. I am a novice machine knitter and have used the Instruction Books to teach myself. I used to knit by hand but have had to stop due to osteoarthritis and I find the terminology for the wool for hand and machine knitting very puzzling. Kind regards from Janet Payne in Warwick.

The Silver Gauge went out of production over 20 years ago and we did print a guide (of sorts) in the magazine so here it is for the benefit of other readers, too.

FINALLY...

Thanks to the readers who sent a copy of the Men's Collection No. 2 from 1987 to help Annette Wright knit her lemon rib cardigan (see our May 2011 issue, Page 13).

At HCS Crafts we have traded since 1997 and have a wealth of experience in the yarn trade.

Having the advantage of a retail shop and an online presence means we keep abreast of all the current trends. We have the full range of King Cole yarns and current patterns available online and a large selection is also stocked in store alongside other companies including Elle, Sirdar, James Brett, Cygnet and Wendy.

We also stock needles and other accessories along with a range of cross stitch kits.

FREE SERVICE

A number of readers have volunteered to give help and advice to beginners or those returning to machine knitting after a long break. If travelling distances are not too great, they may even sit with you whilst you develop some basic knitting skills. Please keep in mind that our Knitting Buddies are not trained professionals, so please don't take advantage of their generosity by overloading them with your queries. Remember also not to ask for or expect the impossible!

This is a free service to our readers, but for it to continue please understand that 'phoning one of Buddies at 10.00 pm for an hour-long chat is not reasonable. Do keep your calls short and if you need comprehensive advice, simply make arrangements to call back at a time that's convenient. For this service to work, do remember that co-operation is essential.

ROCKABYE

By popular demand, we're publishing a selection of **Ruth Cox's** popular Pippin Designs and here's the first in a new series

TENSION

Hand knit 26 stitches to 10 cm, 4 in measured over stocking stitch. It's essential to knit to correct tension. If your work is loose, use needles a size smaller. If your work is tight, use needles a size larger.

Machine knit 26 stitches to 10 cm, 4 in measured over stocking stitch (tension dial setting approximately 10 on standard gauge machines or 3 on mid gauge machines).

For perfect results, please check your tension carefully.

ABBREVIATIONS

For a list of abbreviations we use, please turn to page 62.

NOTES

We used knit side of knitting as right side. 'Thread off' in hand knit version means break yarn, then thread end through stitches as you remove them from needle. 'Thread off' in machine knit version means break yarn, then thread end through stitches and release from machine. 'E-wrap' means use closed-edge method of casting on. 'Transfer alt sts' means transfer every alternate stitch onto adjacent N and push empty Ns back to NWP.

PATTERN RATING

Easy to knit by hand or machine.

MACHINES

This pattern is suitable for standard and mid gauge machines.

MATERIALS

Any suitable soft DK yarn

70 to 80 g in Blue (MC). 50 to 60 g in Pink (A). 20 to 30 g in White (B). A small amount in Peach (C). Oddments in Lemon (D) and Rose (E). Pair 3¼ mm knitting needles for hand knit version. Polyester stuffing. A small amount of blue felt for eyes. UHU clear adhesive. Red pencil crayon.

MAKING UP

Match markers on arms to markers halfway along body piece. Sew arms in place. Fold work in half at shoulders. Join side seams of finger section and side seams of body and arms. Stuff head. With a finger inside finger section, push finger section into head. With seam at back, pin head to body. Sew on securely. Mark position of centre of each eye with pins, fifteen rows from cast off edge, leaving six clear stitches between. Using template, cut out felt shapes for eyes. Glue in place. Using B, make a 'highlight' by making a small straight stitch from centre of eye to top right of each eye. Mark position of mouth, eight rows above cast on edge, leaving two clear stitches between. Using E, embroider a V shape. To make a nose, using C, make a few stitches on top of each other 12 rows above cast on edge. Rub the side of a red pencil crayon on face to give rosy cheeks. To make a curl, wind D, around one finger six times. Sew curl to forehead.

“If you've a special request for one of Ruth's designs, let us know and we'll publish it in the coming months”

BABY

Using MC, make a bobble for hat by winding yarn around two fingers twenty times. Slip yarn off fingers. Tie a length of yarn very tightly halfway along length of loops. Cut loops and trim any uneven strands. Attach bobble to top of hat. Sew hat to head to cover top part of curl.

Fold hand in half, join sides and cast off edge of work, leaving cast on edge open. Stuff very lightly. Fold top of fingers over and pin in place to make a fist. Using A, make four sets of stab stitches through work to represent fingers and thumb (see illustration). Make second hand in similar manner, but remember to fold fingers opposite way, so making a right and left hand. Sew hands into open ends of arms.

Fold sleeping bag along colour change row and sew edges of work together. Join front of sleeping bag for 17 cm, from fold. Pin together sleeping bag and back body markers. Pin sleeping bag seam to front body marker. Sew cast on and cast off edges of body to folded edge of sleeping bag between B and C. Join sleeping bag from A to B and C to D. Make a few stitches through both layers of sleeping bag and top of back body section just below head. Make

Pippin Designs

Many of you will remember Ruth and her lovely **Pippin Designs**. She's now retired, but her patterns have always been popular and Ruth still receives requests. As she's unable to help, we're reproducing some of her patterns in the magazine and we're most grateful for her permission. We've written the sleeping bag pattern as stocking stitch all over, so when it's folded it's plain on both sides. Many clubs now include hand and machine knitters so as Ruth's original pattern included hand knit instructions, we're including them here. Don't forget - if you've a special request for a **Pippin Design**, do let us know.

Take a break and browse around our Trading Post. There's a great selection of machine knitting items you can order directly through us.

ORDERING IS EASY

Simply fill in the coupon or write out your order on a plain sheet of paper and send it to us, together with your remittance. We can accept cheques or postal orders. Alternatively, call us on 01628-783080 and place your order by telephone. We can accept most cards including Mastercard, Maestro/ Switch, Am-Ex and Visa. Please do not send cash.

AVAILABILITY

We do not anticipate that any item will be sold out, although all items are offered for sale subject to availability. It is possible that prices may have to change without notice, due to circumstances beyond our control. However, this is unlikely to happen if an order is placed whilst the current magazine is on sale. If you are concerned about availability and cost, please telephone us before ordering.

DELIVERY

You can shop with confidence in the Trading Post, because all orders will be sent to you direct from the manufacturer. All orders will be processed promptly, but you should allow 28 days for delivery. Please include a telephone number with your order; it will be treated with strictest confidence but will speed up delivery of your order should there be a query. If you have any queries, we shall be pleased to help if you telephone us on 01628-783080.

MINIMUM TOTAL ORDER

There is a minimum total order value of £5.00.

POSTAL CHARGES

There is no additional charge for postage and packing in the UK. Prices quoted are fully inclusive. Overseas postage is charged at cost.

RETURNS

If you should have reason to return any goods purchased through Trading Post, please contact the supplier direct. We regret that we are unable to accept returned goods at our offices, but we will investigate any complaints.

ALL IN One

This month **Bill King** takes us off in a new direction with a seamless top knitted in one piece on a single bed machine

Making up a garment can sometimes take longer than the knitting, but not with this one. Basically it's two sock heels opened at the point by casting off and on again to form the armholes, with extra wedges to give a flared shape to the garment.

Knitted from the end of the tie cord at one side to the end of the tie cord at the other, the only making up is to sew the two ends back into the cord. The 3x1 mock rib makes it easy to push the needles in and out of holding position and adds definition to the sideways-knitted look of the garment.

Size One average size to fit dress sizes 12 to 16. For larger sizes, add extra rows at each side of centre back wedge for width.

Machines Instructions are suitable for all standard gauge machines.

Yarn Any suitable 4-ply.

Tension 31 sts and 40 rows to 10 cm, 4 in measured over 3x1 mock rib and counting empty needles as stitches throughout (tension dial setting approximately 7).

Note The whole garment is worked in one piece.

TO KNIT

Cord Cast on 3 sts at centre of machine and K 200 rows.

Shape side edge Cast on 19 groups of 3 sts at beg of next 2 rows, maintaining 3 x 1 N arrangement. K 8 rows.

Wedge Set carriage to hold. Push 2 groups of 3 Ns at opposite end to carriage to HP and K 2 rows. Rep until only 3 Ns rem in WP. Push 2 groups of

3 Ns back to UWP and K 2 rows. Rep until all Ns are back in WP.

Make sock heel to form sleeve Push 1 group of 3 Ns to HP at opposite end to carriage on next 2 rows, K 6 rows.

Rep 12 times more. 13 groups of 3 Ns rem in WP for armhole. Cast off these sts and then cast on again over same sts to form armhole. Hook first cast off st onto last N cast on. K 8 rows on these sts and take care that they knit properly, use weights as soon as you can. Push back one group of 3 Ns at opposite end to carriage on next 2 rows, K 6 rows and rep until all Ns are back in WP. K 20 rows on all sts.

Wedge Work as given before from same side then K 20 rows.

Make sock heel to form sleeve Work as before, but knit only 2 rows on all sts at end.

Wedge Work as given before from same side then K 9 rows.

Shape side edge Cast off 19 groups of 3 sts at beg of next 2 rows. 3 sts rem.

Cord K 200 rows then cast off.

Making up Sew in ends of tie cords and that's it! ■

and buy. Come
and join us on
**SATURDAY
16TH JULY** at
John Ruskin

Points to Note

- Move the claw weights along when working the short row shaping, otherwise the 3 sts at the end may not knit properly.
- If you knit a loose row before casting off at the arm-hole, remember to change back to the main tension before knitting the other side!

On form

This month **Alice Wilmshurst** has lots of useful hints, as well as help and advice about the Form Computer

Alice writes I'd like you all to know that I've decided to send our Editor Anne a huge number of contributions I received from Olive Jinkings whilst I was Publisher and Editor of the E6000 Journal. Olive sent me an unbelievable amount of help, freely and unstintingly given and I don't want her articles to remain in the past. She is a wonderful teacher and more knitters need to read her words.

FORM COMPUTER

Alice writes Olive Jinkings sent me the following excellent advice and suggests that if you study Line 11 in the Form Programs for Back, Front, Long Sleeve and Short Sleeve, it becomes obvious that Line 10 is telling the machine the stitches for the welt or cuff and Line 11 is the code for the length of the welt or cuff. She tried a few experiments with Form and Form Test. For C, which is the length of 40 rows of rib, she programmed 40 mm. In a garment one row would then be 1 mm and 10 rows would be 1 cm. She then tried five experiments, changing Line 11 each time and came up with the read-outs in Form Test, see table above.

If you check 7 and 5 with body and sleeve diagrams, you'll see that the diagram measurements are wrong, which she feels explains why her ribs never come out the measurement they were supposed to be. For every 2 you add or subtract to

Line 11	rib rows	rib length	rows to shaping	total rows
1	38	3.8	340	452
3	48	4.8	350	462
5	58	5.8	360	472
7	68	6.8	370	482
9	78	7.8	380	492

the number in Line 11, the cuff will be lengthened or shortened by 1 cm., so one more or one less will add or deduct 0.5 cm.

As you can see from the tests, this extra is added to the length of the arm between the wrist and the armhole shaping, so for 2 cm longer the total length will need to be 2 cm shorter. Obviously 1 is the smallest number you can put in Line 11, so 3.8 cm is the shortest cuff or welt you can program. Olive tested up to 9 to give 7.8 cm.

FORM

Olive knows knitters who still don't use Form, though they've had their machines for many years. What a help it is! Just knit your tension swatch with waste yarn at both ends, take it off the machine, roll it lengthways into a sausage and pull it as if you were making toffee. (By the way, 40 rows in four colours aren't enough to get hold of because it only amounts to five rows of pattern!) Olive does her tension swatches over 80 needles and 320 rows, or more if she wants to see the whole picture

and a multiple of 40 makes it easier to calculate. She leaves the swatch for at least 24 hours then blocks it out, steams it and leaves it for another 24 hours. She then measures the 80 stitches and divides by 2 to get the number of millimetres in 40 stitches required for letter B in Form. Next she measures the 320 rows and divides by 8 to get the number of mm in 40 rows required for letter A in Form. It will then do all your calculations for you.

As Olive suggests, if you don't much like the patterns you can vary the program a little and do a cut and sew neckline. For instance, if you want three-quarter sleeves then Number 1, the cast on width, will be taken at the position where your sleeve will end and it can be very wide. Number 3, the total length will then be much shorter. If you don't want a welt then, for C, which is the number of mm in a 40 row border, you will put the measurement of the pattern you use. When she first did a Form 1 program, she assumed that, since she bought stock sizes in shops, she should enter the same numbers for 1, 2 and 3 as you find in the program. What a silly mistake that was! Either her family and friends have very short arms and thin wrists, though they range from 5' 3" to 6', or Form arms are meant for a gorilla. Now she keeps a chart of 1, 2 and 3 for body and sleeve measurements of the people she knits for. Remember that the measurement against 1 just needs to be wide enough to go over your hand. As a final word of warning, these measurements can change. Bring them up-to-date occasionally and ignore the moan 'you already have my measurements'.

FORM COMPUTER

Form Test Olive always goes through Form Test before she starts knitting and writes the program down. She then adds extra details such as stitch size, when she removes or changes a yarn, corrects her top tension, adjusts her colour lever, changes the stitch size and so on. This may seem slow and appear to be a waste of time but it gives a permanent record and the actual knitting is much faster when we don't have to watch out for instructions all the time. It means we know in advance:

- 1 When we can use the motor drive safely for a good stretch without accidentally missing an instruction.

- 2 When it is (or is not) worthwhile putting the edge springs back on the last stitch after increasing or decreasing.
- 3 The maximum number of stitches that will be used so that we can change the range of the motor drive if necessary.
- 4 When anything is not going to be suitable, such as the length of the cuff or the gap between the top of the picture and the neckline, we can alter the program by changing C or the 'starts pattern after row?' instruction, or whatever else needs to be done.
- 5 When the dreaded **flashing col** will be making its appearance.

Note Beware of the **flashing col**. The computer can't tell you the number of the row, how many to increase or decrease and which colour comes next all at the same time. When you see Col 91, 2, 3 or 4 flashing, you must press **ent** to receive further instructions. If we assume it's merely telling us which colour to use and carry on, we'll be told off by the beep and **err** and have to go through all the rigmarole of going back to **start pos** then **wait** and so on until the computer tells us which row we're at. It will be right but it's time consuming and there's the danger that during all this we might make another error.

For instance, in **Tech 207** we've BX<-> (left and right arrow keys) on the back bed with alternative pushers up. If these pushers get out of line we may get a jammed lock, in which case and if we're lucky, we have to start the error business all over again. We may also lose a lot of stitches from the back bed and have the bother of picking them all up or, worst of all, one or two stitches will be lost without us noticing. All may appear to be normal because the needles fill up, but when we've finished our work we'll see where it happened on the right side as well as the wrong. The same thing can happen when we increase, if we move the end stitch out and fill up the space. The empty needle has been pushed down and we have to pull it back up to fill it. However we must remember to bring the pusher back up if it's got out of pattern or we'll upset the computer - and we don't want to do that, do we?

Ignore Form Olive ignores Form necklines because she feels there is often enough increasing and decreasing on the very necessary shaping for sleeves and armholes. However she does have another reason for just knitting two backs and then doing sew and cut. She very often can't make up her mind what kind of neck to do. The choice is so wide and includes 'V'

necklines as well as round, shawl, cowl, polo, rib, slash, Fair Isle band, wrap-over and so on. When she's finished, blocked and steamed the pieces, she sews the two shoulder seams and attaches the left sleeve, leaving the side seams on body and sleeve, open. Then she puts the garment on, or pulls it onto her dressmaker's dummy. (By the way, she doesn't do any dressmaking, but the dummy is invaluable for knitwear and we couldn't agree more with her.) This gives her a better idea of what kind of neck she'd like. She might then experiment with different kinds of stitch sizes and depths and patterns. When she has the required band, she pins it onto the garment and stitches round the outside. Next she works zigzag stitch just inside the band on her sewing machine, cuts away as she folds and pins to the inside. Sew and cut necklines are no cause for worry.

FORM COMPUTER

Reader Mavis Heavyside tells us that when programming for sleeves she inputs the number of stitches for the cuff such as -25/+25 and works the cuff. She then presses the correction button and increases by 10 stitches to -35/+35. When these have been increased she adds a further 10 stitches to -45/+45. She

continues in this way until appropriate stitches have been increased. She finds this is far more manageable than working across the whole number of stitches at once. Another tip she has is if you've to pull back some of the rows the computer will always give even numbers to get the lock back to the right. Sometimes only one row needs to be unravelled or perhaps three. Take note of the number of rows that are correct. Select GX or SX and do the empty rows and so on. Then leave the lock on GX or SX with yarn in feeder in lock. Take lock across to the left. Select LX or BX or whatever, check the row counter and continue knitting. This saves time, particularly if you are using the full needle bed.

Reader Mrs Dobson has always used a charting device. She actually likes the Form Computer and Form Programme and always uses it, provided she can find a programme for the shape she requires. In fact, when she sold her Duo 80 she kept the separate Form Computer and intends to use it on her Brother. As more and more programmes are produced for the Form computer, she finds it becomes much more useful.

«skirt without pushers, sent to Alice by Enid Kell. It's suitable for either an adult or child and doesn't have a lot of bulk around the waist.

Alice writes A tension swatch is essential to determine width and length, but once that's sorted out, this skirt is really easy and suitable for any beginner. Remember, that unless you hang this swatch up to dry while still dripping wet, you may make the wrong calculations and have problems with the skirt dropping when worn. (I talk from experience.)

Yarn Any suitable 3-ply or 2 ends of 2/30s.

To knit Using stitch size 3/3 and N/N, cast on Ns required in full needle rib. Depending on size required, you may be able to knit one panel for small sizes and two, four or more panels for larger sizes. Arrange Ns as shown below and K length required.

Waistband Use all needles and black strippers. Set lock on GX/N and K 10 rows. Change to N/GX and K 10 rows. Inc stitch size by one whole number and K 1 row with orange strippers. Cast off.

YARN COUNTS

Alice writes I've found a chart in my notes on yarn sizes, which some readers may find helpful. When you're interchanging yarns and for best results, do try to find yarns with similar yards per pound. You'll also need to take into account if the yarn is dense and spun tightly, or 'fluffy' and spun loosely. A dense yarn such as rayon will have more weight to it, so if you replace a fluffy acrylic with a rayon yarn with the same yards per pound, the rayon will be much thinner and the fabric may end up sheer. Am I making sense? Anyway, here's the chart and 'wc' stands for worsted count, which is used for acrylics and worsted wools. Cotton count is shown as 'cc', used for cottons and some sneaky acrylics that happen to be spun on the cotton system.

- 1 Fine 1 ply = 2/36wc or 24/2cc = 10,080 yd/lb
- 2 Full 1 ply = 2/30wc or 20/2cc = 8400 yd/lb
- 3 Fine 2 ply = 2/20wc or 14/2cc = 5600 to 5880 yd/lb
- 4 Full 2 ply = 2/16wc or 10/2cc = 4200 to 4480 yd/lb
- 5 Three ply = 2/12wc or 8/2cc = 3360 yd/lb
- 6 Four ply = 2/8wc or 5/2cc = 2100 to 2240 yd/lb

Lots to see and try, lots to do and buy. Come and join us on **SATURDAY 16TH JULY** at John Ruskin College, CR2 8JJ. See page 17 for details.

Do check your machine manual for approximate stitch sizes and in the E6000 manual the chart is on Page 9. This gives you a ball park figure of where to start when trying different yarns. You'll always need to knit swatches to pick the best gauge, as it will vary from one machine to the next and there are infinite variations in the yarns. For our American readers and if I'm not mistaken, I think that a fingering yarn is about the same as a UK 3-ply and sport weight is about a 4 ply.

Reader Anne Pearson writes I'm sorry about all the numbers but in worsted count, English 2-ply is 2/16 WC. Divide the 2 into 16 to give the finished count of the yarn and then divide 16 by the finished count to give 2-ply. Three ends of 2/19 is equal to a 6/19. The total count is 3 and 1/6, so the ply is 16 divided by 3 and 1/6 which is about a five ply. Most standard gauge machines should manage that. Four ends of 2/19 is equal to a 8/19. The total count is 2 and 3/8 so the ply is 16 divided by 2 and 3/8 which is 6 3/4. This would be a thick double knitting weight which some standard gauge machines can manage and Toyota machines can usually knit with no problem.

Finally Do turn to page 62 of the magazine to find useful lists of industrial counts, a guide to quantities, machine tensions and conversion tables for general use.

THIS 'N' THAT

Question I've been thinking of buying an overlocker for cut and sew necklines, would anyone like to comment on the use or have any tips. There must be a few knitters who use one.

Alice writes I have one and believe me, an overlocker does far more than necklines. A three thread model is enough and a four thread machine is luxury but not always needed. Naturally I have one with four threads. (Smile!)

Question I'm not happy about the amount of software information given.

Alice writes It's the use of the software together with the E6000 that's causing

AUTO COLOUR

- A Four black selector keys
- B Main lever
- C Colour changer lever

so much anxiety for knitters and so it must be included in the magazine. Since the information and practice will lead to success, it's essential that we write about it. The E6000 is an amazing machine because of the console and DesignaKnit is a must for knitters (using any machine) who are interested in designing.

Comment As a point of interest to other knitters, over the past year I've knitted jumpers using the racking handle, turning it more than 40,000 times. The handle has worn half way through the support at the front; it's thin and has also worked through the rod so I've had the front support fitted with a bearing.

Alice writes And I thought I liked racking!

Comment I now look back and smile at one of my experiences on my E6000. I'm not sure if anyone else has had trouble with the Auto Colour Changer. I'd progressed very nicely onto four colours and was enjoying myself. I finished what I was doing and felt very smug, but alas - I couldn't get the feeding eyelets to return to neutral and the booklet wasn't very helpful. In desperation I rang the shop where I bought the machine and was told the Passap lady was out seeing to her horses and would ring me back. Four days later with still no phone call, I thought perhaps she was coming to see me on horseback! In the end I phoned a friend who calmed me down and told me very clearly how to deal with the problem. I only wish the booklet had been as clear. I do feel sometimes that we're left entirely to our own devices and it's one of the main reasons why MKM is so important. It's now a lifeline to many knitters.

Alice writes Regarding the Auto Colour Changer, to put it in neutral position get on your hands and knees and look under the machine. There you will find a metal flap. Press this the way it will go and the keys will return to neutral. It's like anything in life, so easy when you know how. ■

Patchwork quilt

Linda Collins sent us a colourful quilt she's made from oddments, together with a photograph of her granddaughter happily knitting squares, so Linda can't take all the credit for this one!

PATTERN RATING

★ Easy to knit.

MACHINES

This pattern is suitable for standard gauge punchcard or electronic machines. Linda used her garter carriage for the moss stitch border, but any knitted or crocheted border can be added.

MATERIALS

Any 4-ply Yarn

Small amounts in assorted colours for Squares (MC) and in Border Colour (C).

MEASUREMENTS

Approximately 76 cm by 76 cm, 193 in by 193 in.

TENSION

No tension swatch necessary (tension dial setting approximately 6•).

ABBREVIATIONS

For a list of abbreviations we use, please turn to page 62.

NOTES

We used purl side of knitting as right side of one colour squares and knit side of knitting as right side of two colour squares. Before knitting, prepare any punchcards or electronic sheets needed from charts provided. **Electronic machines** Place pattern over centre 0. Linda used Brother Card 3J for her two-colour squares and we reproduce it courtesy of Brother.

MAIN PART

Knit 144 squares in assorted colours

Push 40 Ns at centre of machine to WP. Using main carriage and MC, cast on 40 sts using e-wrap method. Insert card and lock on first row. Set RC at 000. Using MT, K 4 rows. Release card and cont in tuck stitch. K 84 rows. Cont in st st. K 4 rows. RC shows 92. Cast off.

PUNCHCARD

JOIN SQUARES

Push 40 Ns to WP. With right side of one square facing, pick up 40 sts from cast on edge and place onto Ns. With wrong side of next square facing, pick up 40 sts from side edge and place onto same Ns. Using MT and a matching colour, K 1 row. Cast off. Repeat this method when joining all squares.

FIRST BORDER

Knit 2 (for opposite ends of quilt)

Push 40 Ns at centre of machine to WP. Using main carriage and C, cast on using e-wrap method. Using MT, K 4 rows. Remove main carriage. Place garter carriage at right. Insert card for moss stitch and lock on first row. Program pattern for garter stitch. Release card. Using MT-1, K 12 sets of 88 rows and mark each set at both ends with contrast yarn (this is to enable joining and turning hem for easier matching. Cast off.

JOIN FIRST BORDER

Both alike (join to opposite ends of main part) Push 40 Ns to WP. With right side of one square facing, pick up 40 sts and place onto Ns. With wrong side facing, pick up 40 sts from 1 set of 88 rows of border and place onto same Ns. Using main carriage, MT and C, K 1 row. Cast off. Repeat

for remaining squares. You can pick up 4 squares at once if preferred. Fold in half and catch down on wrong side.

SECOND BORDER

Knit 2 (for opposite sides of quilt) Work as for two ends, but knit 1 set of 44 rows, 12 sets of 88 rows and 1 set of 44 rows and mark each set at both ends with contrast yarn.

JOIN SECOND BORDER

Both alike (join to opposite sides of main part) Push 40 Ns to WP. With right side of one square facing, pick up 40 sts and place onto Ns. With wrong side facing, pick up 40 sts from 1 set of 88 rows of border and place onto same Ns. Using main carriage, MT and C, K 1 row. Cast off. Repeat for remaining squares. You can pick up 4 squares at once if preferred. Push 20 Ns to WP to join ends of border to sides of border. Fold in half and catch down on wrong side. ■

Size right

What causes the most stress among knitters? Tension, of course! **Joan Lafferty** tackles the subject and hopes to take the tension out of tension

Am I going to make myself unpopular, I wonder? This month I thought I'd talk about tension and the suggestion that we knit a tension piece is certainly unpopular in some quarters. The old hands among us have always got to bear in mind that there are newcomers who want all the help they can get - and who better to give it than the old hands themselves?

POPULAR PANSIES

I've decided to knit a black jumper with pansies on the front. I've made this jumper a number of times in the past and it has proved to be very popular. The back and sleeves are all in black and there are multi-coloured pansies on the front. I'm not particularly fond of knitting in black and I've decided to make a row of one of the colours of the pansies around the neck, so that I can see where to backstitch it down. However, I've not got anywhere near that stage yet. First of all, since I was starting with a new cone I had to do a tension piece because I'm going to work with my Knit Leader. Did you notice I called it a tension 'piece' not a tension square? In case you're wondering why it's because this item is seldom, if ever, square!

When knitting a tension piece, one of the first considerations must be the contrast colour. You must choose it carefully, otherwise the main yarn colour 'melts' into the waste and it's difficult to see where the waste yarn ends and the main colour starts. I always find it difficult to select a cone for waste yarn, because I'm a magpie and I can't bear to use something that might come in handy later on! However, in this case I'd a half-cone of bright yellow wool (yes, I do mean wool) which I bought in one of those 'bargain boxes' at a sale. It turned out to have had the moth in it and, although I think I've got below the 'moth line', I'm not taking any chances! In any case, the

bright gold is an excellent contrast for the black and just what I want.

TWO'S COMPANY

So, using an open edge cast on, I started off. I'd not done much knitting for a while, only a few dolls that didn't require tension pieces so I'd not used the nylon cord for a while. There was not just one knot in it but two! How do they get there, when the wretched cord is untouched by hand? I invented a gentleman called 'George', who used to follow me from school to school, when I was teaching. The cord would be put away carefully at the end of the lesson, but would have a knot when I came to use it the next time. Don't ask me how it got there, other than being tied by a malicious sprite called George.

I took a little time out to undo these knots, because it really does pay in the long run. I knitted four rows of my gold colour, then removed the cord and knitted a further four rows. I know from bitter experience that knitting more than the original four rows of waste yarn will result in the cord engaging itself lovingly round the gate pegs. It's then extremely difficult to pull out! Knitting less than four rows doesn't leave sufficient depth to insert the weights.

I always mark my tension pieces with the number on the tension dial. In this case, I was using Tension 7, so I knitted seven stitches (by hand) with my gold colour. Then on I went to row 30, where

I marked stitches 21 each side of the centre 0. Someone somewhere is asking how I mark stitches and again, I knit the stitch by hand with the contrast colour. I remember one student remarking that there would be one extra row of stitches over this contrast colour. This is quite right so it's necessary, when measuring, to avoid this particular row. Now I can hear someone asking how I knit by hand on a machine. Take an end of contrast yarn, push the correct needle out so that the stitch on it slips behind the latch, lay the yarn in the hook and pull the needle back until the stitch is in line with the others. To finish my tension piece, I knit another 30 rows and take off on about eight rows of waste yarn.

PUSH & PULL

As the knitting is stretched sideways it's necessary to rest the tension piece, overnight if possible, so it resumes its natural size. Some instruction books recommend we pull it and pat it, but even if I do this, I still let it rest for several hours. Now the tension piece is knitted for the black part of my jumper, I must also do another one for the pansies. Two colour work is usually knitted at one whole tension bigger than plain stocking stitch - a point to remember when knitting bands of stocking stitch interspersed with Fair Isle patterns. Having set the tension one number higher, I've often forgotten to put it back for the stocking stitch knitting. I find it easy to let my mind wander,

IDEAS

Add a bit of Italian chic with **Helios**, the embroidery yarn from Alessandra Filati at Uppingham

“ Old hands must always bear in mind that newcomers want all the help they can get and who better to give it than the old hands themselves? ”

but I guess newcomers will be paying more attention than I do! In this case, I didn't have to strain my mental faculties because the whole front would be knitted on Tension 8.

OUTNUMBERED

For the purposes of this article, I knitted some extra tension pieces! I worked one set on my Brother 836 punchcard machine and one set on my Brother 950i electronic machine. There was not a lot of difference on the stocking stitch samples, just one stitch and two rows to be exact. However, this was measured over just 40 stitches and 60 rows. You must never forget that a stitch or two on a tension piece is one thing, but you'll be knitting across something like 150 or 160 stitches for an adult jumper. In fact, for this particular jumper I needed to knit over 250 rows. You can see that if I used the wrong tension piece, the finished garment would have been an inch or so larger or smaller and the length would have been even more 'out'. When it came to my pansies, the difference was even greater, so it really is important to do a tension piece.

My reason for knitting tension pieces on two different machines was to make the point that all machines knit differently. The same make and model, in different hands, will usually end up giving different answers. Even different dye lots of yarn, from the same manufacturer, will exhibit this difference - so there's really nothing for it but to grit one's teeth and do that tension piece! I've got a whole collection of these tension pieces tucked away; so one of these days I'm going to join them all together and make a blanket for one of the charities. In the past, I've pulled out the yarn marking the stitches and the tension number and worked the open stitches

Old hands won't forget the captivating floral designs brought to us by Wendy Phillips and who knows, perhaps they were the pansies Joan used on her jumper?

in the main colour, but I think this time I'm going to be lazy! I'll just tie the ends of the marked stitches and darn in the ends of the others. The blanket will be just as warm with a few different colours (and knots) here and there! By doing this I must, of course, give a little thought to the original ply. A few tension pieces in chunky yarn mixed in with the four ply ones will make a blanket that's anything but rectangular!

JOIN IN

In case you're interested, I intend to pick up the open stitches on the tension piece - the first one with the right side facing then the second on top of this, wrong side facing. I can put several pieces all along the machine, knit one row at Tension 10 - perhaps in yet another colour - and cast off with the latch tool. This way, I can make several long scarves and then join the long sides together on my Hague linker. Somehow, I've a feeling that this job is going to wait for one of those days consisting of 48 hours!

Up to now, I've talked about the way I work - and I almost always use a charting device. However, I know that many people don't have this excellent aid to machine knitting, particularly the newcomers. So, what's my advice to them for getting the correct size? If you're following a printed pattern, try to get the number of stitches as near as possible to that stated in the pattern. This may mean a lot of different tension 'tries', but you can always undo them at the end if you need the yarn to finish the garment. »

Alternative therapy

Although we all love our knitting machines, there comes a time to do other things. So, if something interesting comes our way, we'll find a corner in the magazine to pass it on and this month we've a lovely book about growing our own herbs.

YOUR HERB GARDEN - MONTH BY MONTH

by Barbara Segall

Herbs have been used for centuries for their culinary, medicinal and aromatic qualities. Available in all good bookshops The Herb Garden covers everything we need to know to cultivate, harvest and use a vast array of different herbs. Planting details are given in a clear, easy-to-use format and there's lots of practical information on growing. The book gives an introduction to the herb garden for each month, along with straightforward instructions and a checklist for seasonal tasks. It offers both beginner and expert lots of easy-to-follow projects from designing a herb garden to harvesting herbs for scented gifts. With another Bank Holiday on the horizon, we've fingers crossed for some fine weather to make a start.

Starting over

Over the years Joan Lafferty has shared lots of ideas, hints and tips with us and been a great help to machine knitters. Many of you have asked us to re-print some of her earlier articles and this month's is just as relevant today as it was when she wrote it. By coincidence, Joan has also dropped us a line about a nylon cord and she writes:

Dear readers

I seem to be kept busy these days with hand knitting. I've made a baby cardigan for my former 'lady wot does' (or did!), a cardigan for my friend Judith the House Manager and the church is starting their Saturday coffee mornings, with a gift stall. With a little luck they get visitors in the summer, who will buy odds and ends to swell the funds.

I woke up at five o'clock one morning recently and what was on my mind? It was the nylon cord. I know why this was because recently I turned out my yarn cupboard and a nylon cord dropped to the floor. Instead of putting it back I carelessly left it on top of something and it gravitated into a pile of ironing. My 'lady wot does' found it on the day before my early awakening and handed it to me.

Since I couldn't get to sleep, I was reminded that my first venture into writing for a knitting magazine was called 'In praise of the nylon cord'. It was for one of the several magazines dealing with machine knitting (long before MKM was born) and I honestly forget which one it was. This little piece could hardly be called an article, since it was a couple of inches deep

across two columns, but at an exhibition I talked to Kathleen Kinder and she approved. It was high praise indeed!

This was not my first shot at appearing in print. I had several articles in a baby magazine after my daughter was born in the sixties and indeed I ran a magazine for the Federation of St. Raphael clubs for the disabled for several years, writing most of it, printing it on my Gestetner, collating it and posting it to the various clubs. It 'died' soon after I gave up but I digress - back to the nylon cord. Is it still as useful today as it was back then? I guess it is, unless something has been found to replace it.

When teaching my students I found that many of them disregarded this little accessory, because they couldn't imagine what it had to do with a knitting machine. I tried to teach them otherwise and remember one occasion when I showed them how to take stitches down to non-working position using my little friend. The next week I overheard one student complaining to her neighbour, "It's all right for Joan, but all my stitches dropped off when I tried to use it!" So, like so many things, it does take a bit

of practice, but it's well worth it. If you haven't used the nylon cord, do have a go. But I hope you won't wake up at five o'clock in the morning with it on your mind! Happy knitting, **Joan**

SHAPING WITH NYLON CORD

Taking needles back to NWP on the nylon cord is useful when shaping whilst knitting a lace pattern. In such cases needles can't be pushed to HP, so work as follows.

Push needles you want to decrease to holding position.

Lay the nylon cord in the hooks of the needles as shown. Make sure that the nylon cord is in the hooks of the needles completely and hold on firmly.

Allowing nylon cord to slip through fingers as required take back needles, one by one, to non working position. Take care not to drop the stitches.

Operate the knit (and or lace carriage) carriage, as required.

When you want the needles back in WP, pull at each side on the nylon cord. The needles will come forward and allow you to transfer the stitches to the hooks of the needles before removing it. It's a similar action to pulling back stitches.

« When it comes to rows, there's only one thing for it - a little arithmetic! Take the number of rows you're knitting to four inches (or 10 cm), divide by four to give you the number of rows to the inch, or ten for rows to the centimetre and multiply by the length you want to knit. It's not too difficult, especially if you use a calculator. I know that readers like my articles because I write about things that go wrong for me, so I'll now tell you about a jumper where I took a chance following a suggestion by another knitter. I've not met this knitter again and, because she was a member of a knitting club where I was giving a talk, I can't say, "I told you so" - as if I would!

WHAT A SURPRISE!

I wanted to make a child's jumper, using some part cones. Not having a tension piece for the main yarn, I took an aggregate of several from the same manufacturer, both stitches and rows. I decided to do a plain back, with little white bunnies all over the front. I also introduced some white stripes into the welts. Using a drawing on my charting device that I've used for years, the back came out somewhat short - now there's a surprise! I knitted the front one whole tension bigger than the back and decided I'd do 'cut and sew' for the neckline. I also hoped that the front would knit up longer than the back, because it would be fairly simple to add some extra rows to the back to match the front.

Need I say that this didn't work out! The front, even at a higher tension, came out just about as long as the back - give or take about two rows! What should I do next? I could do some extra rows on each piece, of course, but this would mean not only bunnies chopped about on either side of the neck, but also that they would stop halfway up the body. As it was, I'd managed several complete rows of bunnies, which looked very nice.

My solution was to pick up stitches on the back and knit 20 rows of 1x1 rib. I did the same on the front, making a slash neckline, which made the length just what I wished for in the first place. This is an example of what I call 'turning a mistake into a design'! However, it would have been much easier to have made the two tension pieces in the first place and work from them! ■

Advanced Holding Position PART 2

PART 26

We're following life in **Beryl Jarvis'** classroom and as several students return each year, they want to be taught something different to the beginners so this time the topic is advanced holding position

METHOD 1

I usually refer to shaping in holding position, using the following method with either manual or automatic wrap, as Method 1. We move groups of needles from working to holding position, then return them all to working position in one of two ways.

Manual wrap The required number of needles is moved to holding position on opposite side to carriage and machine is set so they will not knit. We knit one row and then take yarn under needle in holding position (next to needles in working position) to give a manual wrap.

Automatic Wrap The required number of needles is moved to holding position on opposite side to carriage and machine is set so that they will not knit. We move one less than required number of needles to holding position. We then knit one row, move needle next to holding position needles from working to holding position to give an automatic wrap.

METHOD 2

Sometimes the shape required needs to be created by bringing all needles into holding position, then returning them in groups on alternate rows. I usually refer to this method as Method 2 and it's worked as follows.

- 1 Cast on 100 stitches and knit about 20 rows.
- 2 Set machine so it doesn't knit Ns in HP. If you're not sure how to do this, refer to my last article or the manual for your machine.
- 3 Change to a different colour yarn and K 1 row.
- 4 * Move 9 Ns at opposite end to carriage from WP to HP and K 1 row.
- 5 Move N next to Ns in HP from WP to HP and K 1 row *.
- 6 Rep Steps 4 and 5 from * to * 8 more

Sample 1 Method 1 Wedge

Sample 1 Method 2 Wedge

times so 10 Ns will be in WP and 90 in HP.

- 7 Change setting on your machine so that all Ns will knit and K 1 row.
- 8 Change back to first colour and K 20 rows.
- 9 Change to second colour and K 1 row.
- 10 Set machine so it doesn't knit needles in HP and move all Ns into HP.

- 11 * Move 11 Ns nearest carriage from HP to UWP and K 1 row.
- 12 Move N in WP next to Ns in HP from WP to HP and K 1 row *. 90 Ns are in HP and 10 Ns nearest carriage are in WP.
- 13 Rep Steps 11 and 12 from * to * 8 more times.
- 14 Change setting on machine so all Ns will knit and K 1 row.
- 15 Change back to first colour and K 20 rows.

In the example, needles were moved in groups of ten - using an automatic wrap in both cases. Using Method 1, one less needle than the group (in this case nine needles) are moved to holding position. We knit one row then move the tenth needle. Using Method 2, all needles are moved to holding position and a group with one more needle (in this case eleven needles) are moved back to knit. We knit one row and then move the extra needle from working to holding position. »

«Look closely at your knitting and you will see the difference between shaping by Method 1 and Method 2 (see Sample 1). The rows knitted over all needles have created straight sections, between wedges or triangles, produced by holding position shaping or short row knitting. The triangle made by Method 1 starts off wide and ends narrow and the triangle made by Method 2 starts off narrow and finishes wide.

If you wanted to use a manual wrap with Method 2, all needles would first be moved into holding position. ** The group nearest carriage (in this example ten needles) are moved back to upper working position. We knit one row, then take yarn under first needle in holding position that's next to working position needles and knit one row **. We repeat from ** to ** as required. The automatic wrap is usually easier to work, because we're less likely to get loops of yarn in the middle of the fabric.

WHICH METHOD TO USE?

Shoulder slopes and neck shaping

For shoulder slopes and neck shaping, we will normally use Method 1.

Sideways knitted skirts

On a sideways knitted skirt, the number of stitches gives you the length of the skirt and the length of the straight sections is equal to the waist measurement. The flare of the skirt is added by the extra rows knitted in the wedges and the wedges can be made either by Method 1 or Method 2. Skirts knitted in this way are usually easy to make, because there are no arms or head to fit around - as there are on sweaters (see Diagram 1).

KNITTING TRIANGLES

You may like to make the wedges into equilateral triangles. If you follow a wedge of Method 1 with a wedge of Method 2, the bottom edge of the knitting will be distorted and interesting godets will be produced (see Diagram 2). If the first wedge is made by Method 2 and followed by a wedge of Method 1, the distortion will not happen (see Diagram 3).

The garment shape that I call **Beryl's Mock 'V'** on which I base many of my own sweaters and tops and it starts off with a rectangle. I next make a holding position wedge by Method 2, follow it by Method 1 and then knit another rectangle (see Diagram 4). If the neck

is not shaped, the straight edge will curl naturally. If you have it, see **Info Sheet 4.2** for a sample of the basic shape. I've also included it on my **Info DVD** and if you watch it, you can follow me designing and knitting a garment based on this shape - and much more! For a

long while I've said that using holding position is the most creative part of machine knitting. I'm sure that you'll find many opportunities to combine the two methods to create really interesting shapes. Until next time, happy knitting. ■

Classwise revisited

Beryl Jarvis ran a very successful course in Leicester for more than ten years and her **Classwise** series of articles is based on life in her classroom and her teaching. The series started in *To & Fro*, then continued in **Modern Machine Knitting** and ended some long time ago here in **Machine Knitting Monthly**. So many knitters are retuning to machine knitting and asking for our help that we've decided to publish the articles again. This will not only give beginners a chance to follow through the course, but also allow those returning to machine knitting to make a fresh start.

Beryl's **Info Sheets** are still available to readers and if you'd like a list of the full set, including prices, please send Beryl a self-addressed and stamped envelope to:

Abbreviations

These are our standard abbreviations.

alt = alternate(ly); beg = beginning; ch = chain; cm = centimetres; cont = continue(ing); dc = double crochet; dec = decrease(ing); foll = following; g = grams; HP = holding position; in = inch(es); inc = increase(ing); K = knit; mm = millimetres; MT = main tension; MT-1, MT-2, MT-3 = one, two, three full sizes tighter than main tension; MT+1, MT+2, MT+3 = one, two, three full sizes looser than main tension; MY = main yarn; N(s) = needle(s); NWP = non working position; P = purl; patt = pattern; RC = row counter; rem = remain(ing); rep = repeat; ss = stitch size; st(s) = stitch(es); st st = stocking stitch; tog = together; UWP = upper working position; WP = working position; WY = waste yarn.

Yarn guide

We sometimes give a yarn guide thickness on our patterns and the approximate weight of the original yarn used is shown below. We do not quote a thickness for those yarns which we feel cannot be substituted.

1, 2 & 3 are extra fine yarns Fine, medium and full bodied one ply yarn including 2/30s

4, 5 & 6 are fine yarns Fine, medium and full bodied two ply yarn including 2/16s

7, 8 & 9 are fine to medium yarns Fine, medium and full bodied three ply yarn including 3/8s

10, 11 & 12 are medium yarns Fine, medium and full bodied four ply yarn including 4/8s

13, 14 & 15 are medium to thick yarns Fine, medium and full bodied double knitting yarn including 6/8s and 8/8s

16, 17 & 18 are thick yarns Fine, medium and full bodied Aran knitting yarn including 12/8s

19, 20 & 21 are extra thick yarns Fine, medium and full bodied chunky knitting yarn including 16/8s

Mock rib instructions

Used for welts, cuffs, neckbands and other edges on single bed machines without a ribber.

Push the number of main bed needles given in pattern to working position. Push every alternate needle back to non-working position for a 1x1 rib or every third needle back to non-working position for a 2x1 rib. It may be necessary to reduce this number by one needle at one or both edges to keep the rib even. (Increase the stitches after the mock rib has been worked to give the same number as the pattern.)

Using main tension and waste yarn, cast on and knit a few rows ending with carriage at left. Set row counter at 000. Using at least two full sizes tighter than main tension, knit the number of rows given in pattern for rib. Using three full sizes looser than this tension, knit one row. (This loose row gives a neat fold line.) Return to two full sizes tighter than main tension and knit the same

number of rows as before. Push empty needles from non-working to working position and make a hem by placing loops of first row worked in main yarn evenly along the row. Make sure that each empty needle holds a loop to prevent a row of holes across the work. Unravel waste yarn when work has been removed from machine. After garment has been blocked to size, insert a metal welt bar or thin, clean piece of wood through the hem and pull firmly downwards to draw the stitches of mock rib closer together. Set the stitches by steaming lightly on the wrong side, if pressing instructions permit.

Quick cast-on

This method can be used not only for speed but also when the edges are either hidden or to be gathered by pulling up yarn end. With carriage at right, push alt Ns to WP. Use tension dial setting and either MY or WY as given in pattern. K 1 row. Carefully hook on the cast-on comb. Push remaining alt Ns to WP and K 1 row. The carriage is back at right. Cont as given in pattern instructions. When knitting is removed from machine, pull yarn end at cast-on edge to gather up sts or, for a straight edge, pull yarn end to remove any slack and fasten off. Your manual will describe this method of casting on although it may be called by a different name and may not use a cast-on comb. ■
